

Be The Match BioTherapies® Cell Lines Blog Disclaimer

Information provided by the Cell Lines Blog is intended for adults, 18 years of age or older.

Comments on the Cell Lines Blog will be filtered by Be The Match BioTherapies (“BioTherapies”) and may be subject to removal if they have inappropriate content. BioTherapies will not respond to or post comments that:

- Mention our or others’ services, software or products.
- Offer health or medical advice.
- Are commercial in nature or seek to sell products and services.
- Aim to recruit fans and followers.
- May be considered ‘spam,’ are excessively repetitive and/or disruptive or solicit donations, donor material or other resources.
- Contain fraudulent, profane, defamatory, libelous, offensive, abusive, discriminatory or demeaning content (or links to such content).
- Disparage, threaten or condone violence or illegal behavior.
- Pertain to ongoing legal matters or regulated content.
- Are not in English.
- Otherwise violate BioTherapies’ [Terms of Use](#) in any way.

There is a chance we will encounter a situation not outlined above, which will require us to not approve your comment for posting to the Cell Lines Blog. BioTherapies reserves the right to delete any comment at its sole discretion.

Personal information will be requested of you (name and email address), if you wish to comment or sign up for the Cell Lines RSS (Rich Site Summary) feed. The nature and use of personal information is outlined in BioTherapies’ [Privacy Policy](#).

The comments contained on this blog come from members of the public, and do not necessarily reflect the views of BioTherapies. BioTherapies does not endorse or approve of their content.

Liability

BioTherapies’ is not responsible for the content provided by third-party sources. This includes, but is not limited to: External news articles, research articles or links.

Information contained on this Web site is not a substitute for a doctor’s medical judgment or advice. BioTherapies recommends that you discuss your specific, individual health concerns with your doctor or health care professional. The materials and discussions presented here describe current treatment options and drugs or treatments that may be under study, and are for informational purposes only. Treatment options or donation procedures should be determined by an individual and his or her treating doctor.
